The Tala Hospital

Quality & Affordable Healthcare

THE TALA HOSPITAL

" Quality & Affordable Healthcare "

HOSPITAL PROFILE

OUR STORY

The Tala Hospital was founded by a dedicated group of specialist doctors primarily from Tala in Machakos County, in partnership with local investors. The Tala Hospital was estab- lished with a strong focus on community-driven healthcare with its inception being August 2023 as a Level 3B facility. The founders shared the vision of providing high-quali- ty, accessible, and affordable healthcare to the surrounding communities. Equipped with state-of-the-art medical equipment and staffed by highly qualified professionals, the hospital quickly became a vital resource, addressing the previously unmet medical needs of the local population.

Currently, **The Tala Hospital** has acquired Level IV status (KEPH) after being upgraded by the KMPDC effective from 14th November 2025 and also its SHA Accredited, following the successful fulfillment of all requirements set by the Ministry of Health and the regulator. This upgrade has allowed the facility to expand its Specialized services, including Advanced diagnostics, Critical care, Renal services, Surgical procedures, and Inpatient care. As the preferred healthcare provider in Tala, Machakos County, and neighboring regions, we are dedicated to upholding our reputation for excel- lence in patient care , and our commitment to the well-being of the communities we serve. Our mission remains clear: ***to be at the forefront of delivering exceptional healthcare that meets the needs of our diverse patient population at an affordable cost.***

OUR DREAM

The Tala Hospital was born from a shared and ambitious dream: of providing accessible, inclusive, and affordable healthcare to the community. From the beginning, our mission has been to break down barriers related to cost, distance, and limited resources, ensuring that high-quality care is available to all. Our journey has been driven by continuous growth and the trust of the community, which motivates us to push the boundaries of what we can offer and to provide the best possible care to every individual who comes through our doors.

We aspire to elevate The Tala Hospital to a Level 5 regional referral center, expanding and enhancing our services to meet the evolving healthcare needs of our community. The facility has established a comprehensive Dialysis center, advanced imaging facilities; including *CT Scan, and is planning to offer a robust Oncology, Urology services, an Entomology, and MRI Services in the near future.* We also recognize the importance of mental health and we are committed to developing a comprehensive program offering *Counseling, Therapy, and Psychiatric care*. Our vision is to create a healthcare hub where advanced medical technologies are combined with compassionate care ensuring that every patient feels valued and that the well-being of the community remains our top priority.

Our Vision

"To be the leading model of excellence in Healthcare and Wellness, setting the standard for quality and compassion in patient care."

Our Mission

"To enhance the health and wellbeing of our community by delivering innovative, compassionate, and quality healthcare services, while creating sustainable value for our stakeholders."

Core Values

Trust | Respect | Integrity | Professionalism | Innovation

OUR FACILITIES

We pride ourselves on having state-of-the-art facilities designed to meet the diverse healthcare needs of our patients.

1) OUTPATIENT DEPARTMENT:

Our outpatient department is equipped with modern consultation rooms, a laboratory, and a fully stocked pharmacy.

2) INPATIENT DEPARTMENT:

With a current capacity of 56 beds, our inpatient department includes a maternity ward, male and female wards, a pediatric ward, and a nursery.
Once fully operational, we plan to expand to a 100-bed capacity, establish private and executive wards.

3) Surgery Department:

We have two fully equipped theaters: the main theater for general surgeries and an emergency theater dedicated primarily to maternity cases.

4. Radiology Department:

Our radiology department offers comprehensive X-ray, CT Scan and ultrasound services.

Our CT Scan services provide fast, accurate, and high-resolution imaging to support timely diagnosis and effective treatment planning.

Our Ultrasound services offer safe, non-invasive, and accurate imaging to support early diagnosis, monitoring, and guided clinical care.

5) Accident & Emergency Department:

We provide prompt and efficient care in our accident and emergency department, equipped with a 4-bed emergency ward and a procedure room.

6) Specialized Clinics:

Our specialized clinics cover a range of Medical services, including Dental, Ophthalmology, Obstetrics, Orthopedics, Nephrology Gynecology, Surgery, Pediatrics, Physiotherapy, ENT, Urology and High risk.

Ophthalmology

7. Renal Unit:

Equipped with modern dialysis machines and supported by trained healthcare professionals, the unit ensures safe, efficient, and compassionate dialysis treatment while promoting patient comfort, dignity, and long-term health outcomes.

8. Critical Care Services:

Our Critical Care Services (ICU/HDU) provide advanced, round-the-clock care for critically ill patients, supported by modern life-support equipment and a highly skilled multidisciplinary team.

Dental Services

Provide comprehensive, patient-centered oral care, including preventive, restorative, and emergency treatments using modern equipment and skilled professionals.

Laboratory

It a class E laboratory

Maternity

We have very experienced and friendly Midwives

Newborn Unit
